**Paris Gets Franchise in Base-
ball League.**

The solons of the Blue Grass Base Ball League met at Richmond Wednesday. During the meeting a deal was completed whereby the franchise of the Lawrenceburg Club passed into the hands of Mr. Jeff Elgin, Jr., of this city, as representative of the Paris Club.

Mr. Elgin was the premier backstop of the league last season. He is meeting with success in disposing of stock in the Paris Club and he should be given hearty support. This a good baseball town and we venture to say that Paris has more baseball fans than any town of the same class in Kentucky. Now let everybody lend a hand in helping Mr. Elgin in this enterprise. As we are now in the league we must win the pennant and to do this a first-class club must be secured and this of course, takes money. In every way let our citizens take hold like they have done in Lexington, Winchester, Richmond, Frankfort and Shelbyville, the clubs that Paris will have to beat to win.

It was decided at Wednesday's session, which was the first of a two days' meeting, that the league season shall open on Tuesday, April 27. The schedule is to consist of 120 games and they will be so arranged as to allow the league to run until about September 15. The games on the opening day have been scheduled as follows: Lexington at Richmond. Frankfort at Shelbyville. Paris at Winchester.

The next meeting of the Blue Grass League managers will take place in Paris on Feb. 24. The principal business of this meeting will be to complete the schedule for the coming season. A representative of the interurban railway will be present for consultation in regard to securing grounds and building a grandstand somewhere on the interurban line near the city. The Paris Club will be incorporated with a capital stock of \$3,000.

New Bank for Shawhan.

Articles of incorporation were filed yesterday with County Clerk Pearce Paton for a new bank at Shawhan, Bourbon county, to be known as the Shawhan Deposit Bank. The capital stock is to be \$15,000, divided into 30 shares at \$500 per share. The names of the incorporators are E. F. Knox, Dan Wilson, C. A. Wilson, R. R. Lail, Walter Fate.

If this thing keeps going every county precinct in Bourbon will have a bank of its own. Centerville and Hutchison precincts will no doubt file articles of incorporation for banks. This makes 12 banks for Bourbon county and yet you hear a few old croakers growling about hard times.

Sheep Money Here.

County Clerk Pearce Paton received a check yesterday for \$525.40, the amount assessed for sheep killed in Bourbon county for year 1908. Parties that this money goes to are asked to call on Mr. Paton and get a check for amount due them.

Fish and Oysters.

Blue salmon, yellow salmon, Spanish Mackerel, mullets, frying and soup oysters, the finest in the city. Codfish bricks, etc.

WM. SAUER.

MATRIMONIAL.

—At the residence of the bride's father, Mr. Wm. Doty, in East Paris, Miss Eva Doty and Mr. Henry Shout, were united in marriage Tuesday evening, at 7 o'clock. Elder Carey E. Morgan officiating. The wedding was quite a surprise to the most intimate friends of the contracting parties. The bride is an attractive and estimable young lady while the groom, a son of Mr. and Mrs. Samuel Shout, of this city, an industrious, worthy young man, and is an employee of the Paris Milling Company.

—Miss Lena T. Kidd and Mr. S. S. Crawford, both of Lexington, arrived in Paris on the 9 o'clock a. m. interurban car yesterday, and went immediately to the residence of Elder Carey E. Morgan, where they were united in marriage. Mr. Crawford is a prominent young groceryman of Lexington, while the bride is a handsome and popular young woman in her home city.

Sayings of Lincoln About Matters of To-day.

I think that the reasonable men of the world have long since agreed that intemperance is one of the greatest of all evils among mankind.

To secure to each laborer the whole product of his labor, or as nearly as possible, is a worthy object of any good government. With some men liberty means for each man to do as he pleases with himself and the product of his labor; with others it means to do as they please with other men and the product of other men's labors. That issue will continue in this country when my poor tongue shall be silent. It is the eternal struggle between right and wrong. The common right of humanity and the divine right of the kings. In whatever shape it develops itself into it is the same tyrannical spirit that says: "You toil and work and earn bread and I'll eat it."

Labor is prior to and independent of capital. Capital is only the fruit of labor and could never have existed first. Labor is superior to capital and deserves much the higher consideration. No men living are more worthy to be trusted than those who toil up from poverty. Let them beware of surrendering a political power which they already possess and which, if surrendered, will surely be used to close the door of advancement against such as they, and to fix new disabilities and burdens upon them, till all of liberty shall be lost.

I should be the most presumptuous blockhead upon this footstool if I for one day thought that I could discharge the duties which have come upon me since I came into office, without the aid and enlightenment of One who is stronger and wiser than all others.

With malice toward none, with charity for all, with firmness in the right as God gives us to see the right, let us strive on to finish the work we are in; to bind up the nation's wounds, to care for him who shall have borne the battle and for his widow and his orphan—to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations.—From the February Circle Magazine.

Signs of Cooling Off.

Is the good feeling between England and Japan cooling off? There are signs that it is. In the naval conference held in London the British authorities were sanguine that Japan would support their propositions, but they took the opposite position. Then too, the Japanese minister at Peking declined to go with the American and British ministers to inquire of the Chinese government its attitude on internal reforms and their bearing upon international relations.

In the Interest of Economy.

A man who chews twenty cents worth of tobacco a week concluded to try a tobacco cure. In two weeks he ate \$1.50 worth of the "cure," and for the next two weeks he used ten cents worth of yuccatan, five cents worth of candy five cents worth of peanuts and five cents worth of cough drops per day. During these two weeks he also consumed two large rubber erasers, ate the rubber tips from fourteen lead pencils, chewed up a dozen pen holders and browsed off his moustache as high as he could reach. He is now chewing tobacco in the interest of economy.

An Undignified Proceeding. "It's strange that we can't even have a quiet literary meeting in this town," says the Billyville Banner. "A most undignified scene occurred at the last 'Literary,' when the president was hit side the head with a leg of barbecued mutton! And barbecued mutton is so hard to come by, too!"—Atlanta Constitution.

New Departures in Insurance.

Insurance against death, loss by fire or by shipwreck, burglary, bad debts, illness, physical injury, lack of employment, defective real estate titles, and a hundred and one other risks is now an old story. The slight injury to Padewski's fingernail reveals the existence of a \$5,000 policy protecting it and recalls the fact that Kubelik's precious finger-tips have been similarly safeguarded. No doubt companies accepting speculative risks would for a sufficient premium insure the delicate throats of prima donnas against hoarseness, says the New York World.

Yet, familiar as are the ramifications of insurance, the institution of insanity insurance in Great Britain will appear a novel departure. According to our Consul at Dunfermline, policies of this character provide for the payment of \$500 a year during five years of mental incapacity in return for an annual premium of \$2.50, while a premium of \$5 insures the payment of \$500 during an unlimited period of insanity. Very possibly the possession of a policy against insanity would tend to retard if not to prevent the development of the disease, such is the power of mental suggestion. In this country a company insuring against attacks of dementia Americana or homicidal brainstorms and providing for indemnification of the victim's family would be reasonably certain of a good business.

In the matter of new forms of insurance, that proposed by Assemblyman Marks for the benefit of automobile victims will receive popular endorsement. By the provisions of the Marks bill all owners and drivers of automobiles must carry insurance to the amount of \$10,000, available as compensation for damage to property or to persons caused by the operation of the machine, and not including its occupants. Hired chauffeurs are to be insured for \$2,000, to indemnify owners against damage. In England motor-car insurance exists for the protection of the owner against injury to himself or accident to the car. But the enforced insurance of automobilists for the protection of the public is a novelty of legislation as well as of insurance.

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John E. Fife, one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW, says of Unicorn root (*Helonias divi*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system. He continues 'in Helonias we have a medicinal which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent.' Dr. Fife further says: 'The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhoea; atonic (weak) conditions of the reproductive organs of women; mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhoea (suppressed or absent monthly periods) arising from or accompanying an abnormal condition of the digestive organs and systemic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen.'"

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the chief ingredients of which is Unicorn root, or Helonias, and the medicinal properties of which it most faithfully represents. Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says: "It is an important remedy in disorders of the womb. In all catarrhal conditions and general enfeeblement, it is useful." Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root: "In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is unobscuredly regarded as the tonic useful in all debilitated states." Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal: "Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhoea (painful menstruation)." Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

F. R. PHILLIPS
& Company,

Cheerful Ignorance.
"You'd be surprised," said the woman who is supposed to be wise, "how many people are perfectly ignorant of the correct way to write acceptances and regrets when they are asked to entertainments. It would pay some enterprising woman to go around writing them for those who don't know how. You'd be amazed to see the people who come to me to ask how it is done or to get me to write them. And," she admitted, "if the truth must be told, I don't know so awfully much about it myself."

Japan's Woman's University.
The Woman's university, founded in Japan in 1900 by Jinzo Naruse, now has nearly 200 pupils, and over 100 teachers are employed. There are several American and English teachers. Agricultural and domestic science are taught, along with other things considered necessary for a woman's education. The pupils must work, laundering their own clothes after approved methods, cooking and doing other practical work.

Scotch Superstition.
Under no circumstances on the northeast coast of Scotland will a fisherman at sea mention certain objects on land, such as "minister," "kirk," "swine," "dog," etc., and the line will surely be lost if a pig is seen while baiting it. As on the land chickens must not be counted until they are hatched, so at sea fish must not be counted until they are all caught.

Women as Photographers.
An ornithologist says that women make better field photographers than men, as they have that tact and perseverance which wins the confidence of the bird and gives them the opportunity to get photographs of it in natural poses. Any work in connection with natural history ought to be interesting to women, but they do not seem to have the love for it that men have.

Whistling in English Streets.
In England whistling is very common among all classes, and, indeed, it is rare in London to see a butcher or a grocer boy on his daily errands whose lips are not pursed up for the purpose of emitting the whistling notes of the comic song of the hour. So prevalent is the habit that in hotels, and even in clubs, requests are posted up to "refrain from whistling."

Cato's Refrain.
It was Cato who always ended every speech he made in the Roman senate with the words, "Delenda est Carthago." "Carthage must be destroyed." It made no difference what subject he was discussing, Cato always used this warning, claiming that the safety of the Roman empire depended on the destruction of its rival across the Mediterranean.

All Is Vanity.
Vanity is so anchored in the heart of man that a soldier, a camp-follower, a cook, a porter, makes his boasts and is, for having his admirers; even philosophers wish for them. Those who write against it, yet desire the glory of having written well; those who read, desire the glory of having read; I who write this way have this desire, and perhaps those who will read it.—Pascal.

Anticipation Worse Than Realization.
Men are so unanimously eager in the pursuit of things which, far from having any inherent real good, are varnished over with a specious and deceitful gloss, and contain nothing answerable to their appearances. Hence, it proceeds, on the other hand, that in those things which are called evils there is nothing so hard and terrible as the general cry of the world threatens.—Lord Bolingbroke.

Wise and Foolish Widows.
They tell of a woman in Coolidge who put up such a costly monument for her husband that she has had to wear old clothes ever since. Also of another widow who put up a modest little headstone and had money to buy herself nice clothes, and now has another husband paying for her coal and flour.—Atchison Globe.

Bad Temper, Vulgar.
It's bad for the spoiled favorite of society if she forgets to wear her armor. One must never lose one's temper. "When a woman of much wealth determines to be a leader in the social whirl, she must be sure of her equipoise," says an authority. "Achievement of social success is guaranteed only by perfect self-control."

With an Eye to Business.
A Billville jury, slow in arriving at a decision, and feeling the keen demands of appetite, sent the following note to the judge: "If you don't send us somethin' to eat quick, we'll have to find the defendant guilty; but if you'll send us three meals a day we'll stay here till he's innocent."

Attracting the Fish.
If the fish did not come soon enough in British Columbia the Indians used to employ a wizard, who made an image of a swimming fish and put it in the water to attract live fish to the bait.

Can Trace Storms for Ages.
Terrific sand storms occur in the Shantung provinces of China. Around tombs and other places where the soil is not disturbed the annual deposit of these storms can be distinctly traced for ages, layers of an eighth of an inch being the minimum for any season.

INDIGESTION'S RECORD

"The best remedy I can prescribe for your indigestion, madam, is Green's August Flower. I know of several other physicians who prescribe it regularly."

Indigestion is making an awful record as a cause of sudden deaths. It is beating heart-failure in its ghastly harvest. You read in the papers daily of apparently healthy and even robust men being suddenly attacked with acute indigestion after enjoying a hearty meal, and of their dying in many cases before a physician could be called in. This should be a warning to you who suffer with regular or periodical attacks of indigestion. If these unfortunate victims of acute indigestion had taken a small dose of Green's August Flower before or after their meals they would not have fallen a prey to such sudden seizures. August Flower prevents indigestion by creating good digestion. It also regulates the liver, purifies the blood and tones up the entire system in a natural way. Two sizes, 25c and 75c. All druggists.

BARCALO BEDS
DO NOT COME APART OR BREAK DOWN

If you want a bed that will last, that will always be solid and substantial, look to these points:

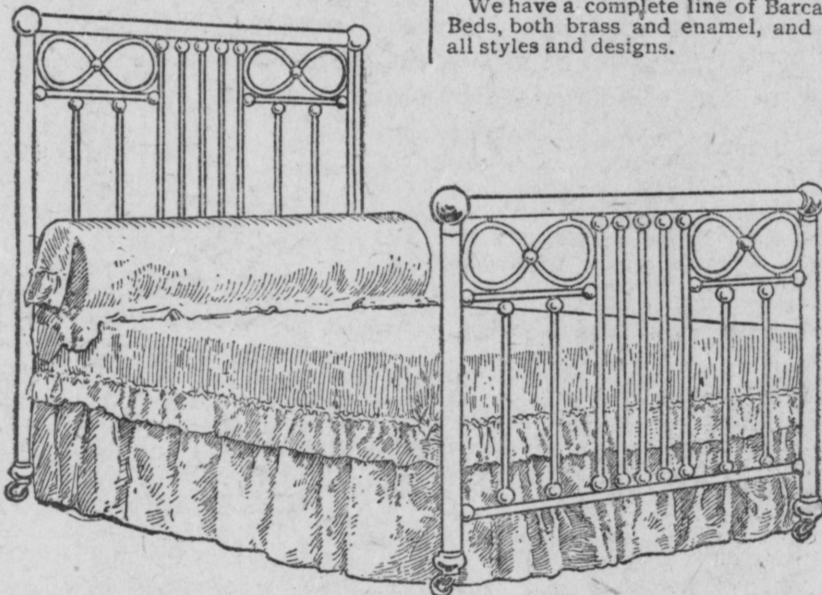

The corners or couplings—the castings on the posts—are what hold the bed "up," hold it together.

In Barcalo Beds, these castings are of unbreakable malleable iron. So they never break or give way. All connections are so solid that your bed can never come apart, never get shaky or rickety.

And so with all parts. The tubing in the pillars or posts, the cross-pieces, the rods and supports, all are strong and substantial. The parts which hold the casters are put in solidly, so they never get loose, never fall out.

In most other beds, the parts where the strain comes soon weaken. Then, the finish of Barcalo Beds, whether brass or enamel, will not crack or peel. It is most durable because it is heavy-ply.

We have a complete line of Barcalo Beds, both brass and enamel, and in all styles and designs.

A Knockout Blow.

In an opinion by Judge Hobson, which was concurred in by all the other Judges, the Court of Appeals Friday gave the poolrooms what is conceded to be their final knockout in this State. The appeals all came up from Covington and Newport and all decided against the poolroom operators, Respass, Bero, Daveziac, Enright and Huber. The court holds the Attorney General is the only official in the State who has the authority to institute injunction proceedings against poolrooms and that they can be enjoined. The opinion says: "No constitutional right of the defendants is violated by the proceedings. They are proceeded against in precisely the same way as in all other cases in equity. They are simply prevented from so using their property as to make it a nuisance in the future. The judgment has reference solely to what they may do in future. It has no reference to what they have done in the past."

Condemned Spoils System.

The President's message vetoing the census bill as read just before adjournment in the House. Its reading was held up several hours for fear that discussion of it might jeopardize the passage of a number of private bills which were entitled to consideration under special order. The President in his veto message strongly condemned the spoils system.

Pardoned to Attend Funeral.

So that he could attend the funeral of his mother, who died Friday, Albert Bailey was released from the penitentiary Saturday on pardon by Gov. Wilson. Bailey's term would have expired on Feb. 13 and the Governor, after finding that the convict's record has been excellent decided that he might be released a few days sooner in order to be at his mother's funeral. Bailey was convicted in Lawrence county on a charge of housebreaking and was sent to the penitentiary for one year. His mother died at Portsmouth, O.

'Twas a Glorious Victory.

There's rejoicing in Fedora, Tenn. A man's life has been saved, and now Dr. King's New Discovery is the talk of the town for curing C. V. Pepper of deadly lung hemorrhages. "I could not work nor get about," he writes, "and the doctors did me no good, but, after using Dr. King's New Discovery three weeks, I feel like a new man and can do good work again." For weak, sore or diseased lungs, Coughs or Colds, Hemorrhages, Hay fever, LaGrippe, Asthma or any Bronchial affection it stands unrivaled. Price 50c and \$1.00. Trial bottle free. Sold and guaranteed by Oberdorfer, the druggist.

An Opportunity Offered Kentuckians to Secure All the Portraits of Kentucky's Governors Free With the Bourbon News.

During the year 1909 we propose to give to all who subscribe for twelve months a 1909 edition of the Kentucky Governors' Wall Atlas.

Portraits of every Kentucky Governor, some very rare, one of them the only one in existence.

Nine other maps.
The very latest map of Kentucky, especially engraved at a cost of \$3,500. Facts and figures and interesting statistics of all United States possessions, flags, coats of arms.

Portraits of United States Presidents.

The great Panama canal zone.

A page is given over to historical Kentucky from formation of State to the year 1909.

A Historical and Political Directory of Kentucky.

Presidential vote.

State officials.

Are and population.

United States Senators.

Chief Justices.

Speakers of Kentucky House.

Congressional, Judicial and Railroad Commissioners' Districts. Democratic and Republican State Central Committees and State Executive Committees.

Senatorial Districts.

Counties of Kentucky, when made and from which counties, area and population.

The Atlas alone is worth at least \$1.50, yet you can secure it without cost.

The offer is for old as well as new subscribers. Everybody should read a daily newspaper, as well as the county paper.

The way to get the Atlas is to subscribe for The Bourbon News together with the Louisville Evening Post for one year. The price of the Atlas and both papers is only \$5.00.

Call at this office and see this magnificent Atlas, or send for circular giving full description.

Worth importing.

It seems that in Germany the more a man is in love the harder he studies.

In this country he cuts school and gets married. We are in favor of a reciprocal treaty which will establish the German method here.—Philadelphia Inquirer.

Important to Bachelors.

Cellulose does not pay. A good marriage is the supreme human felicity; a tolerable marriage is as much as the tolerable majority of people deserve; but even a bad marriage is better than no marriage at all.—Book-fellow.

lie in the low, marshy bottoms of the Potomac, the breeding ground of malaria germs. These germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility, and brings suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malaria troubles. "They are the best all-round tonic and cure for malaria I ever used," writes R. M. James, of Louisville, S. C. ROYAL BAKING POWDER

Thousands of millions of cans of Royal Baking Powder have been used in making bread, biscuit and cake in this country, and every housekeeper using it has rested in perfect confidence that her food would be light, sweet, and perfectly wholesome. Royal is a safeguard against the cheap alum powders which are the greatest menaces to health of the present day.

LIVE STOCK AND CROP NOTES

—In Scott county, the Indian Refining Co. sold 38 acres of their recent De Garis Mill purchase to C. C. Jenkins at \$150 an acre.

—Farmers in Nicholas county are pooling their wool crop. The farmers are at last beginning to realize the very important fact that they stand together shoulder to shoulder, if they expect to get their just deserts. They have the world by the tail, with a down hill pull, if they only knew it.

—Secretary Wilson says something must be done to help the potato crop in this country or it is feared we will have a potato famine. It is found by Secretary Wilson that the United States is not producing enough potatoes to feed itself. The result is that many potatoes have to be imported from Europe.

—Large crowd at Carlisle court Monday, but very little stock on the market. W. D. McIntyre, of Millersburg, sold 30 Herford calves to H. J. Calvert, for \$27.15 per head; 4 aged mules to Dick Ratliff at \$27.10 per head; Jas. W. Myers sold one mare for \$150, one for \$200 and 40 Herford calves at \$26.80 per head; several plug horses brought good figures.

—For 1908 the potato crop was 285,000,000 bushels, a crop below the average for a number of preceding years. The chief seat of trouble is in the Eastern States, about the large centers of population. The yield per acre is found to be decreasing there. One might think that potatoes could be shipped in from the Western States, but here the question of freights on so bulky an object as potatoes comes in. The potatoes, if raised for use in the country must be raised near where they are consumed.

Praise and Blame.
The mere fact that praise and blame are at present the corner stone of our moral and social systems goes for nothing. We shall outgrow that just as we have more or less outgrown the primitive desire to kill each other. And can any one deny that a world in which blame did not exist would be far more habitable, civilized and logical?

The Elemental Gipsies.
The gipsies are nearer to the animals than any race known to us in Europe. They have the lawlessness, the abandonment, the natural physical grace in form and gesture of animals; only a stealthy and wary something in their eyes makes them human.

A Venerable Turtle.
A Massachusetts boy, Nathan Sampson, has found a venerable turtle which bears markings made by his grandfather, now 81 years old, which were put on in 1840, and by his great-grandfather, who marked the same turtle in 1816.

Two Things Worth Remembering.
Learn these two things: Never be discouraged because good things get on so slowly here, and never fail daily to do that good which lies next to your hand.—George MacDonald.

International Marriages.
International marriages may prove excellent in this respect: The offspring generally inherit the physical qualities of both nations. But morally and intellectually it is doubtful whether such marriages are a success.—Gazette Medica, Milan.

Important to Bachelors.
Cellulose does not pay. A good marriage is the supreme human felicity; a tolerable marriage is as much as the tolerable majority of people deserve; but even a bad marriage is better than no marriage at all.—Book-fellow.

Pension for Presidents.

A bill was introduced Saturday in the House by Representative Volstead, of Minnesota, which provides a pension of \$12,000 annually for every President after he leaves the White House. No duties will be required of the retired chief executive, but if he should again be elected, to the highest office in the gift of the people his pension would cease during his term of office. The bill does not provide, however, that the pension will cease if the ex-President should accept the office of United States Senator or any other Federal office.

Stole the Watchdog.

Tony Christ, owner of a candy store at Tacoma, Wash., tied a watchdog to his safe. Burglars later entered the store, blew open the safe, took about \$300 and stole the dog.

"Sponge Cake" Lemon Pie.

"Quite an improvement on the ordinary lemon pie with the fussy meringue which is always so difficult to get just right, is the 'sponge cake' lemon pie," says Woman's Home Companion for February. "The ingredients are: Juice and grated rind of one large lemon; one cupful of sugar; two eggs; two table spoonfuls (rounding) of flour; one cupful of milk. Put the sugar into the yolks, and beat. Add the flour, and beat again. Add the milk. Fold in the stiffly beaten whites, being careful not to beat the mixture after the whites are added. The whites rise to the tops while baking and form a sort of meringue, so the pie is really as good to look at as to eat."

Old, Old Story.

Mary Armstrong, ten-year-old daughter of William Armstrong, at Danville, thought the fire in the kitchen stove was out and to start it afresh dashed a can of coal oil into the grate. A great blaze flashed up, burning her face in a horrible manner and igniting her hair.

Where Was He Born?

As the centennial anniversary of Lincoln's birth has arrived the place of his nativity is again questioned. The celebration takes for granted he was born in Larue county and will be held there today. There is much evidence to support the claim that he was born in Washington county and was several years old, while there are people in this section of the State who believe he was born in Clark county near Thatcher's mill, on the Clark and Bourbon line, and removed when he was a small child to Washington county. The fact remains that this is a great country when a man so obscure that his birthplace is unknown may become its President.

Live for Joy Alone.

But we must live as much as we can for human joy, dwelling on sorrow and pain only so far as the consciousness may help us in striving to remedy them.—George Eliot.

DON'T EXPERIMENT

You Will Make No Mistake if You Follow This Paris Citizen's Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy which is known to cure the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in Paris, follow the advice of a Paris citizen and be cured yourself.

Mrs. J. T. Martin, Eleventh and Main streets, Paris, Ky., says: "Kidney trouble in my case was brought on by a fall which I received two or three years ago. My back ached until I thought it would break in two and sharp twinges shot through my kidneys. I tried different remedies but could not find any relief until I procured Doan's Kidney Pills at Wilson's drug store. After using them a short time, I felt like a different woman and was soon completely cured. I gave a testimonial in 1905 for publication regarding my case and at this time I am glad to confirm all I then said. I think more highly than ever of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other

Will Ride in Auto.

When Mr. Taft becomes President he will ride in an automobile furnished by the Government. The question was settled Saturday by the adoption by the Senate of the report of the conference on the urgent deficiency bill, which carries an item of \$12,000 for the "purchase, care and maintenance of automobiles for the use of the President." The appropriation of \$500,000 to enable the Secretary of Agriculture to continue his campaign against the foot and mouth disease, was reduced to \$150,000 and adopted.

Subversion of an Honor.

An extraordinary commission has been created in Paris to investigate the affairs of the Order of the Legion of Honor, created by Napoleon as a signal mark of merit for distinguished service rendered to the state. This original purpose of its founder has been gradually subverted and the cross has been bestowed for rather ordinary causes, frequently political.

Kentucky's New State Capitol.

In less than nine days the new State
Capitol at Frankfort will be completed,
furnished and ready for occupancy. It
was built and furnished without rais-
ing the tax rate and stands as a monu-
ment to the energy and thrift of the
administration of former Governor
Beskham, under whose direction it was
begun, although the voters of Kentucky
decided that the Republicans should
complete it.

The building will be the pride of
every Kentuckian regardless of poli-
tics, for it has been learned from
those who know state buildings that
there are few handsomer, and none
better for the money. It is the only
building in America that has such a
magnificent interior, such a grand stair-
case, and from Gilbert White, the New
York artist, who will paint the pictures
of Boone and his pioneers and Indians
on the lunettes leading to the House
of Representatives and Senate cham-
bers it has been learned that the in-
terior more nearly approaches some
magnificent old cathedral of Europe
than it does a State building.

The handsomest mahogany furniture,
velvet rugs and costliest drapery will
be used to put the finishing touches on
the interior of this beautiful place. It
will be fifteen years before the build-
ing and its surroundings are completed
was the statement of John Olmstead,
the noted landscaper, of Brookline,
Mass., in speaking of the possibilities
of the building. Trees must be grown,
valleys filled and small hills cut down
before the grounds will be as pretty as
it inside. This will be done in time.

The greatest interest, therefore, at
present is centered in the furnishings,
and an idea of them can be gained from
the Governor's state reception room.
It will be furnished in Louis XIV style,
including a mahogany table beautifully
carved, for large Davenports, all elabor-
ately carved and covered with antique
silk damask, costing \$12 a yard. There
will also be several large easy chairs,
upholstered in the same material.

This room, after the decorations are
completed and the furniture and light-
ing fixtures installed, will unquestion-
ably be one of the most beautiful ex-
amples of a reception room in Louis
XIV style in this country. The carpet
will consist of two rugs of hand-tied
axminster, each woven in one piece.

The Philosopher of Folly.
"Blessings seem brightest as they
take their flight," quoted the Philoso-
pher of Folly. "I always notice that
the father of a family thinks the most
of his children at the time when they
are being taken upstairs to bed."

Invention of the Newspaper.
The newspaper was invented by a
Paris physician, who, finding his visits
welcome whenever he brought any
news or gossip, applied to Cardinal
Richelieu for a patent to publish the
Paris Gazette in 1622.

Word from Br'er Williams.
"Even in de summer time," says
Brother Williams, "it's a good idee
er have a steam heater in de meetin'
house, kaze it puts de sinners in mind
er what's ahead of 'um?"—Atlanta
Constitution.

Definition.
As nearly as can be differentiated, a
job is where a man does most of the
work and somebody else gets most of
the pay, and a position is where a
man gets most of the pay and some-
body else does most of the work.—
Puck.

Room Without Noise.
For many physical researches a per-
fectly noiseless room is a desideratum.
If such could be devised it would open
out new possibilities of research. At
the University of Utrecht the problem
has been apparently successfully
solved by the room designed by
Zwaardemaker.

Native "Biri" Most Popular.
Even the extraordinarily low-priced
cigarettes with which American man-
ufacturers have flooded India hardly
hold their own with the native "biri."
The "biri" is now made in large quan-
tities at Tirora. The tobacco is brought
from so far afield as Madras and
Assam.

Spanish Proverb.
There is nothing like deprivation to
excite content and gratitude for small
mercies.

Married and Single.
There is no denying that engaged
lovers stand on one platform and mar-
ried lovers on another. Previous to
marriage so little is said about money.
There are discussions, there are wrang-
lings, but they are done by proxy, by
the lawyers. Once married, however,
the principals must talk of money mat-
ters between themselves; its manage-
ment, its disbursement.—London Lady.

Scott's Emulsion

of Cod Liver Oil is the means
of life and enjoyment of life to
thousands: men, women and
children.

When appetite fails, it restores
it. When food is a burden, it
lifts the burden.

When you lose flesh, it brings
the plumpness of health.

When work is hard and duty
is heavy, it makes life bright.

It is the thin edge of the wedge;
the thick end is food. But
what is the use of food when
you hate it and can't digest it?

Scott's Emulsion of Cod Liver
Oil is the food that makes you
forget your stomach.

been able to cure in all its stages, and
that is Catarrh. Hall's Catarrh Cure
is the only positive cure now known to

a constitutional disease, requires a con-

of the system, thereby destroying the
foundation of the disease, and giving
the patient strength by building up
the constitution and assisting nature in
doing its work. The proprietors have

A Praise Service Worth Hearing.

The Praise Service in the Second Presbyterian church on next Sabbath night will be an elaborate rendition of high class music that will equal many musical concerts that would cost several dollars to hear. They expect a very large audience, but hope to comfortably seat all who come, but come early if you wish the best seats. All are welcome. The following is the interesting program:

1. Organ Prelude—Entra de Procession.
 2. Chorus—"Great and Marvelous are Thy Works"—Holler. By Choir, Mrs. Sutherland, etc.
 3. Hymn—"How Firm a Foundation"—K. in Rippon's Selections. Choir and congregation.
 4. Quartette—"If With All Your Hearts"—from Eliah—Mendelssohn. Mrs. Davis, Miss Hill, Dr. Fithian and Mr. Clay Sutherland.
 5. Solo and Obligato—Nevin. Mrs. Davis and Choir.
 6. Hymn—"Rock of Ages"—Top-lady. Choir and congregation.
 7. Solo with Violin Obligato—"The Day is ended"—Bartlett. Mrs. Sutherland and Miss Margolen.
 8. Quartette—"Where are Thy Workers"—Rossini. Mrs. Sutherland, Mr. Clay Sutherland, Dr. Fithian and Mr. Mitchell.
 9. Hymn—"Stand up for Jesus"—Daffid. Choir and congregation.
 10. Chorus—Kyrie—Farmer's Mass in B flat. Choir.
- Mrs. Frank Fithian, organist; Dr. Frank Fithian, director; Miss Esther Margolen, violinist.

After Seed Corn.

Seed corn, to improve the yield of corn on mountain land, is the object of a search now being instituted by M. C. Rankin, Commissioner of Agriculture. Mr. Rankin has sent Perry M. Sny, Secretary of the State Board of Agriculture, to Carlisle, where he will make an examination of the corn which has been grown by C. S. Templeman, and which is thought to be the kind wanted for experimental purposes. Mr. Templeman recently sent a sample of the seed corn to Frankfort, and it was found to be of the highest quality. If the corn came up to expectations, Mr. Sny will buy 100 bushels of it and will ship it out to farmers in Eastern Kentucky where the corn is not as good as it should be.

The Redmon Sale.

Auctioneer A. T. Forsyth reports good crowd at the sale of the administrator of the late Mrs. Geo. Redmon, on the premises, on Thatcher's Mill pike, near North Middletown. The farm containing 142 acres was bought by Mr. Wm. F. Bryan for \$101 per acre. The cottage in North Middletown was purchased by G. Lee Redmon for \$2,150. Stock, farming implements and household furniture sold well.

Prominent Men Drown.

Two prominent Chicagoans, Charles G. Wicker and Ray Hackney, and a guide, Wm. Phillips, of Naples, Fla., were drowned Wednesday in the Gulf of Mexico, near Naples, Fla. A sailboat in which they were cruising capsized. Two other occupants of the boat, Capt. Oliver H. Dockery, of the United States army, and Dr. Herbert Caldwell, of Louisville, were picked up by a gulf mailboat after being exposed to the water for nearly twenty-four hours. They will recover from the exposure.

Uses A Bank Now.

David Myers, a farmer near Mt. Vernon, Ill., kept his money hidden about his home, and missed a box containing between \$30,000 and \$40,000. A detective failed to discover who had removed the money, but a son found \$18,000 buried under four feet of earth in the cellar. Today Myers deposited the money which was recovered in a bank. Search is still going on for the \$15,000 or more that is still missing.

1908 Tobacco Seed.

1908 tobacco seed selected from forty different crops grown in Madison and Jessamine counties. 50 cents an ounce postpaid. Guaranteed to be as recommended. Supply limited. Order at once.

W. J. BAXTER,
Logans, Ky.

80 Per Cent. of Crop Must Pool.

It begins to look as if the great Burley Tobacco Society which, after two years of fighting and hardship, recently won such a complete victory and brought the tobacco trust to its knees, is likely now to go to pieces and the growers return for this year, at least, to the old plan of every man for himself.

The leaders of the Burley society, who have been feeling the pulse of the planters with a view of renewing the pool for this year's crop, do not hesitate to express their disappointment over the feeling which they have found among the members of the society and of tobacco planters at large.

As far as can be learned there is a general disposition among the growers who formed the pools of 1906 and 1907 to go into a pool this year, and although the biggest crop of Burley tobacco that has ever been raised in Kentucky will undoubtedly be planted this year, there is grave doubt whether a pool will be organized.

The planters who formed the old pools realize that they bore all the hardships of the fight which caused the high price in tobacco, while the selfish ones, who remained outside, secured even greater benefits than the members of the pool. They are, therefore, disinclined to again bear the burdens for the benefit of the use camp followers who, without sharing any of the hardships, have secured the cream of these pools.

The Society, however, has decided that unless 80 per cent of the crop of this year is pledged to a pool, no pool will be attempted at the whole effort to control the crop will be abandoned for this year. Not, however, until the new crop is planted and the extent of the acreage of the 1909 crop determined will the campaign for this year's pool, it is stated, begin. Copies of the new contract will then be sent to the growers throughout the entire district, who will be given an opportunity in way to vote as to whether the pool shall continue or not.

New Lexington Hotels.

Lexington is going to have two new hotels. Work will begin on the new ten-story Leland Hotel, on the old site, next month. The long contemplated improvements on the Phoenix will begin in the early spring and this house will also be made ten stories high.

MARGOLEN.

New Baptist Paper.

At a meeting held Wednesday by the Bluegrass Baptist Ministers' Association at the First Baptist church in Lexington, it was decided to establish a Baptist paper to be known as "The Bluegrass Baptist," of which Dr. J. W. Porter, of the First Baptist church, Lexington, will be editor. The paper will be published in Lexington and is intended simply to cover the local field in the Bluegrass region and is not designed to be a rival to the Baptist organs which cover the whole State.
